Another Industry Veteran Moves to GISI; Service Value Continues Growth Surge

BALTIMORE (February 13, 2009) Group Insurance Solutions, Inc. (GISI), a strategic consulting and employee benefit design firm, continues to increase its high-performance service platform with the addition of another expert resource, Stephen Ivey as Vice President of Worksite Marketing. The implementation of Ivey's role is one of many recent GISI developments indicative of the firm's ongoing surge to the forefront of Maryland's employee consulting and benefits marketplace.

As Vice President of Worksite Marketing, Ivey's 15+ years of insurance expertise will lead the organization's Voluntary benefits division. Formally with the locally-based Mather Companies, Ivey's extensive knowledge of the Voluntary market lends a skilled concentration to GISI's growth initiatives.

An active member of BAHU and NAIFA Baltimore for 10 years, Ivey currently serves as both the Community Service Chairperson and as a NAIFA Charitable Foundation Board member.

ABOUT Group Insurance Solutions, Inc. (GISI)

Group Insurance Solutions, Inc. (GISI) specializes in strategic employee benefit plan design, consultation and implementation for employer groups of all sizes. GISI works diligently and purposefully to not only meet, but to exceed the expectations of each unique client through cost-effective, sophisticated plan management. As experts in benefit coordination and wellness programming, our advanced methodology combines high performance web-based technology with rich veteran know-how to deliver powerful, value-added plan management solutions.

We make it possible for employers to remain focused on building their business without compromising their bottom line. For more information, visit www.getgisi.com.
